

	<b>SUMMARY</b> <b>(ONLINE) SYSTEM PROCEDURE PS.018 (17/05/2022)</b>		<b>APS.027</b>
	SUPPLIER EVALUATION	<b>Issued: 2022.05.09</b>	Page 1 of 2

The supplier evaluation is intended to set up an ordered list of suppliers that are prioritised by type of purchase and must be disclosed to the areas involved for analysis.

Product suppliers are evaluated once a year.

## 1– Supplier evaluation.

### 1.1 - Evaluation of the supplier index

The supplier evaluation index is calculated according to three dimensions:

<b>Evaluation of deliveries</b>	Evaluation based on data collected from actual deliveries	90%
<b>Informa DB Index Failure Score</b>	It measures the risk of the evaluated entity falling more than 90 days behind payments due to at least one of its suppliers in the coming 12 months. The Informa DB programme analyses events (e.g. tax debts, if any, insolvency proceedings, etc.) to calculate the score.	10%
<b>Results of audits</b>	Result of audits carried out according to the annual plan adopted for which there is a check list.	--

### 1.2– Evaluation of deliveries

Table 1 - Supply evaluation criteria:
